Type of bodywork: SH. Wheelchair accessible vehicle.

This report is a supplement of previously issued report RDW-92/21-0044218, RDW-1230/2012-0047963, RDW-1230/2012-0052236, RDW-1230/2012-0059141 and RDW-1230/2012-0074068.

Change of Variant/Versions. No technical change 2<sup>nd</sup> stage conversion.

Considering the stated masses, new measurements are not necessary.

Number of rear passengers (second seat row) may need to be reduced when transporting a wheelchair with passenger with a mass of 160 kg.

In all load conditions there is a realistic position for the additional mass of load in excess (cabin) which makes it possible to comply with the regulations of the directive as regards load distribution. Stage 2 changes are described in the information document.

Further see information document.

For all other items see test reports listed in stage 1 approval.

Relevant approval(s) valid for donor vehicle and completed vehicle if applicable:

<u>Make</u>	<u>Type</u>	<u>Approval</u>
